

Strategic Plan Education Advisory Group:

1. To establish a work plan that identifies and prioritises areas of education for the Society to be involved in by;
 - Observing the principles of the Treaty of Waitangi of protection, partnership and participation within a multicultural society.
 - Exploring innovative models of education and training for wound care.
 - Promoting membership growth and sources of income for the Society.
 - Reviewing and analysing the success of education programmes.
2. Implementing a national data base for all education undertaken by the Society throughout New Zealand.
3. Reviewing the wound care education resources to ensure they continue to reflect national and international best practice.
4. Developing and maintaining education links with national and international professional organisations on behalf of NZWCS.
5. Planning and editing of the NZWCS newsletter 'Tissue Issue' to support NZWCS Administrator in the circulation of Tissue Issue (NZWCS quarterly electronic update on Society events and education articles)
6. Promoting NZWCS to encourage new and retain existing membership.
7. Providing guidance and support to regional study days.
8. Reviewing applications for scholarships and awards provided by the NZWCS (this excludes Research Grants).
9. Providing support to other NZWCS groups and projects as identified by the NZWCS National Committee, ensuring evidenced based practice is followed.
