Biatain® Silicone

Superior absorption - faster healing

The Biatain Silicone range (standard & Lite), delivers a secure fit without compromising the superior absorption of Biatain foam. Perforated, soft silicone adhesive wound contact layer ensures a secure fit to keep the dressing in place whilst delivering minimal pain / trauma upon removal. This silicone technology allows Biatain foam to absorb exudate and conform to the wound bed.

Biatain® Silicone provides the following benefits:

- Superior absorption
- Secure fit
- Non traumatic removal
- Ease of application
- Latex free

reddot award 2017 winner

Biatain® Silicone Shapes and Sizes

Biatain® Silicone Adhesive Foam

Biatain Silicone is indicated for a wide range of exuding wounds when gentle adhesion is required.

Code	USL Code	Size cm*	Sterile/ Non Sterile	Units Per Box	Units Per Carton
33434	13286	7.5 x 7.5	Sterile	10	320
33435	13287	10 x 10	Sterile	10	240
33436	13288	12.5 x 12.5	Sterile	10	240
33437	13289	15 x 15	Sterile	5	120
33438	13290	17.5 x 17.5	Sterile	5	80
33400	14790	10 x 20	Sterile	5	200
33401	14791	10 x 30	Sterile	5	100
33404	14792	15x19 Sacral	Sterile	5	80
33405	14793	25x25 Sacral	Sterile	5	90
33406	14794	18 x 18 Heel	Sterile	5	40
33408	14795	14 x 19.5 Multishape	Sterile	5	80

*Indicates dressing size, for pad size refer to retail box

Biatain® Silicone Lite Adhesive Foam

Biatain Silicone Lite is indicated for lightly exuding wounds when gentle adhesion is required. Its thinner composition offers more comfort and mobility to the patient.

Code	USL Code	Size cm*	Sterile/ Non Sterile	Units Per Box	Units Per Carton
33444	33444	7.5 x 7.5	Sterile	10	320
33445	33445	10 x 10	Sterile	10	240
33446	33446	12.5 x 12.5	Sterile	10	240
33452	14796	5 x 5	Sterile	5	120
33453	14798	5 x 12.5	Sterile	5	140

*Indicates dressing size, for pad size refer to retail box

Biatain®

Superior absorption - faster healing

The Biatain range offers you a selection of foam dressings for a wide range of exuding wounds. All dressings are proven to deliver superior exudate management with minimal risk of leakage and maceration. It is well known that patient comfort is crucial for successful wound healing. Having listened to our customers, Biatain is now offering even more patient-friendly solutions.

3D polymer structure

- Superior absorption and retention even under compression
- Close wound conformability
- Optimal moist wound environment

User friendly design

- Discreet appearance
- Latex free

Bevelled edges

- Significantly lower risk of pressure marks
- Fully sealed edges

The Biatain range provides a unique combination of very high patient comfort and superior exudate management across all dressing solutions.

Biatain® Non-Adhesive Foam

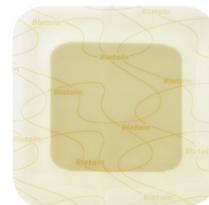

Biatain non-adhesive is ideal for exuding wounds where the surrounding skin is fragile. Designed for superior comfort, this dressing combines all the benefits of the Biatain foam range to deliver an exceptional patient experience.

Code	USL Code	Size cm	Sterile/ Non Sterile	Units Per Box	Units Per Carton
6105	13276	5 x 7	Sterile	10	240
3410	13277	10 x 10	Sterile	10	240
3412	13278	10 x 20	Sterile	5	160
3413	13279	15 x 15	Sterile	5	80
3416	13280	20 x 20	Sterile	5	80

Biatain® Adhesive Foam

Biatain adhesive foam dressing has a reduced thickness, softer foam and discreet design with the same absorbency. The dressing uses a Hydrocolloid product as the adhesive component, ensuring skin friendliness.

Code	USL Code	Size cm*	Sterile/ Non Sterile	Units Per Box	Units Per Carton
3462	13281	7.5 x 7.5	Sterile	10	320
3420	13282	12.5 x 12.5	Sterile	10	240
3423	13283	18 x 18	Sterile	5	80

*Indicates dressing size, for pad size refer to retail box

Biatain® Adhesive Foam Shapes

The unique shapes allow the dressings to conform to the heel/sacrum. The dressing uses a Hydrocolloid product as the adhesive component, ensuring skin friendliness.

Non-Infected

Code	USL Code	Size cm	Sterile/ Non Sterile	Units Per Box	Units Per Carton
3488	13285	19 x 20	Sterile Heel	5	80
3485	13284	23 x 23	Sterile Sacral	5	80

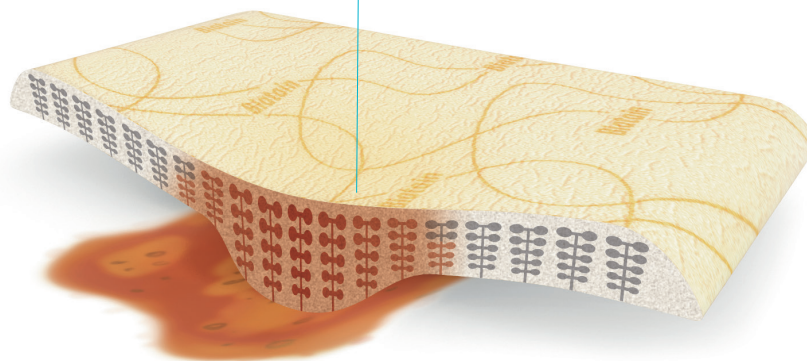

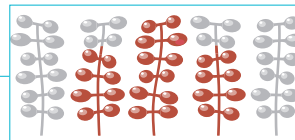

Biatain® Soft-Hold Foam

Biatain Soft-Hold is an additional variant in our non-adherent range. It enables you to situate and keep the dressing in place - with a soft touch, while securing a secondary bandage and applying compression therapy - with minimal trauma to surrounding skin. Gentle adhesive loops of elastomer on the face of the foam ensure dressing security and turn into a soft gel on contact with exudate, creating an optimal moist wound healing environment and traumatic removal.

Code	USL Code	Size cm	Sterile/ Non Sterile	Units Per Box	Units Per Carton
3470	13292	10 x 10	Sterile	5	240
3472	13293	10 x 20	Sterile	5	160
3475	13291	15 x 15	Sterile	5	80

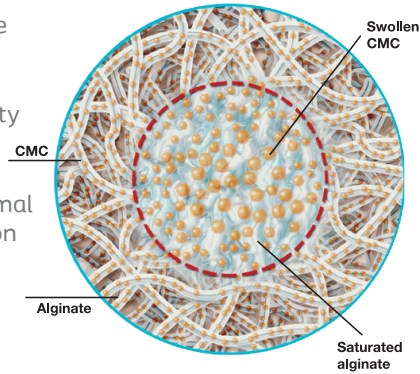

The unique 3D structure of Biatain foam, ensures that even a large amount of exudate is absorbed quickly and locked into the foam.

Biatain® Alginate

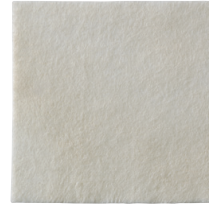

Biatain Alginate is made of a unique combination of alginate and carboxymethylcellulose (CMC) for superior absorption and enhanced dressing integrity i.e. one-piece removal. Biatain Alginate's fast gelling effect creates and maintains an optimal moist wound environment upon contact with exudate.

- Latex free

Biatain® Alginate

A dressing consisting of 85% calcium alginate and 15% carboxymethylcellulose (CMC). This structure is unique because the calcium alginate and CMC molecules are intertwined. This structure ensures that the wound exudate is absorbed vertically resulting in local absorption and hence minimising the risk of maceration.

Code	USL Code	Size cm	Sterile/ Non Sterile	Units Per Box	Units Per Carton
3705	29103705	5 x 5	Sterile	30	720
3710	29103710	10 x 10	Sterile	10	240
3715	29103715	15 x 15	Sterile	10	240

Biatain® Alginate (Filler)

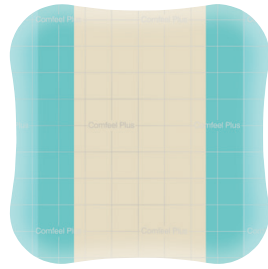

Biatain Alginate filler is designed specifically for cavity wounds. The rope is presented pre-fluffed in order to maximise absorption capacity.

Code	USL Code	Size cm	Sterile/ Non Sterile	Units Per Box	Units Per Carton
3740	291037402	3 x 44	Sterile	6	120

Comfeel® Plus

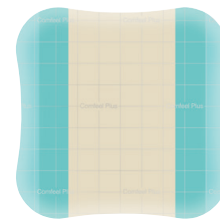

Comfeel Plus dressings have a unique combination of Hydrocolloid and calcium alginate offering these benefits:

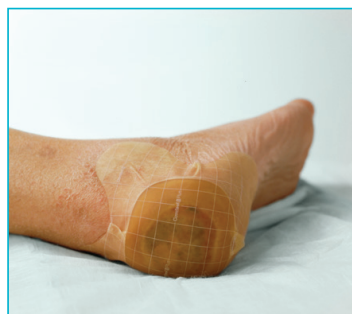

- Superior exudate management with fewer dressing changes and less disruption to wound
- Speciality shapes and sizes for tough to dress areas
- Colour guide indicates best time to change dressing
- 3-piece non-touch application system for ease of use
- Latex free

Comfeel® Plus

This innovative dressing incorporates the latest Hydrocolloid technology plus Calcium Alginate with a 'semi-permeable' top film to provide Superior Exudate Management via: better absorption, evaporation and adhesion. Features also include 'colour change indicator' and bevelled edges.

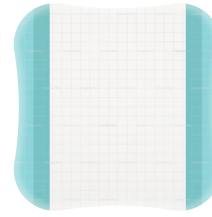

Code	USL Code	Size cm	Sterile/ Non Sterile	Units Per Box	Units Per Carton
33146	29103146	6 x 4	Sterile	30	720
33110	29103110	10 x 10	Sterile	10	240
33115	29103115	15 x 15	Sterile	5	240
33285	29133285	17 x 17	Sterile Sacral	5	80
33120	29103120	20 x 20	Sterile	5	80

Comfeel® Plus Transparent

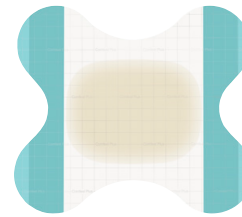

A thin, transparent Hydrocolloid with an intelligent semi-permeable top film. The high MVTR provides superior fluid handling capacity, resulting in longer wear time. A dressing that not only absorbs exudate but allows for visual inspection of the wound whilst in situ. The scar management quality makes this product the perfect choice for post-op wound management. [Now comes with bevelled edges.](#)

Code	USL Code	Size cm	Sterile/ Non Sterile	Units Per Box	Units Per Carton
33530	29103530	5 x 7	Sterile	10	300
33548	29103548	5 x 25	Sterile	5	140
33533	29103533	10 x 10	Sterile	10	240
33536	29103536	9 x 14	Sterile	10	240
33537	29103537	9 x 25	Sterile	5	140
33539	29103539	15 x 15	Sterile	5	240
33542	29103542	15 x 20	Sterile	5	120
33545	29103545	20 x 20	Sterile	5	80

Comfeel® Plus Contour

This versatile dressing is designed for difficult to dress areas, combining a centre of Comfeel Plus dressing with a transparent Hydrocolloid framework.

Code	USL Code	Size cm	Sterile/ Non Sterile	Units Per Box	Units Per Carton
33280	29103280	6 x 8	Sterile Heel	5	240
33283	29103283	9 x 11	Sterile Sacral	5	80

Comfeel® Plus Pressure Relief

Suitable for the prevention of pressure injuries in patients classified 'at risk'. The polyurethane foam pad on the back can be customised to suit the size of the area at risk.

Code	USL Code	Size cm	Sterile/ Non Sterile	Units Per Box	Units Per Carton
33350	6748	7	Sterile Heel	10	180
33353	6749	10	Sterile Hip	10	180

Biatain® Ag

Major independent studies have conclusively proved that Biatain Ag is the only silver dressing that is effective on all bacteria commonly found in infected non healing wounds. Ensuring fast killing of all bacteria and effective exudate management, Biatain Ag is the best solution for infected wounds.

Biatain® Ag provides:

- Broad spectrum silver profile proven to be effective against resistant bacteria
- Intelligent and sustained silver release
- Prevents wound infection
- Optimal wound healing environment
- Latex free

Biatain® Ag Anti Bacterial Non-Adhesive Foam

Combines effective antimicrobial technology with superior absorption for faster healing of infected wounds.

Code	USL Code	Size cm	Sterile/ Non Sterile	Units Per Box	Units Per Carton
5105	13294	5 x 7	Sterile	5	160
9622	11860	10 x 10	Sterile	5	240
9625	13295	15 x 15	Sterile	5	80

Biatain® Ag Anti Bacterial Adhesive Foam

Additional benefit of a Hydrocolloid based adhesive border makes Biatain Ag adhesive an ideal dressing for infected wounds with healthy surrounding skin.

Code	USL Code	Size cm*	Sterile/ Non Sterile	Units Per Box	Units Per Carton
9631	13296	7.5 x 7.5	Sterile	5	160
9632	13297	12.5 x 12.5	Sterile	5	240

*Indicates dressing size, for pad size refer to retail box

Biatain® Ag Cavity

Biatain Ag Cavity is indicated for exuding cavity wounds. Biatain Ag Cavity contains silver as an antibacterial agent for the treatment of critically colonised wounds and the revival of the healing process. Perforations in the dressing, allow for easy folding into a deep cavity. The dressing can also be easily cut to fit any wound.

Code	USL Code	Size cm	Sterile/ Non Sterile	Units Per Box	Units Per Carton
9628	13301	5 x 8	Sterile	5	160

Purilon®

Purilon® Hydrogel

A balanced Hydrogel that provides fast and effective debridement. A unique match of hydrating and absorbing properties, combined with a high cohesive power, ensures that the Purilon Gel is the state of art Hydrogel.

Code	USL Code	Size	Sterile/ Non Sterile	Units Per Box	Units Per Carton
3906	29103906	8g Tube	Sterile	10	180
